## and what have you

by BOB CRAIG

By a mix up in dates last week we carried the story that the annual Mother's March on Polio would be held this past Monday. This should have been tonight.

I asked Bill Early, Lion's Club chairman for the project, if the drive would be Monday and he looked at a December calendar and said yes—so we goofed.

Please have your porch light on tonight and give as much as possible to this worthy cause.

Today is the last day that you can qualify yourself to vote this year.

While it looks as if this may be the last year that the people of Texas will have to pay a poll tax in order to vote—it still must be paid this year.

The best way for you to let someone else decide what kind of government you will have is by not recognizing your right of the ballot. You can gripe all you want to, but if you do not vote it will not carry much weight.

Although it may slow down later, it looks like the Texas Legislature has started this session off in a manner that the people of Texas can be proud of.

Governor John Connally has given the men in the House and Senate a program of work that has a purpose. The two houses organized quickly and have settled down to the task at hand.

In the past there has been so much wrangling over the organization and leadership of the house that it has taken nearly all of the regular session just to get started.

For the future growth of Texas it seems to me that the most important program that the governor has asked the legislature for is the study of higher education.

All you have to do is talk to a head of any of the colleges in the state's systems and they will tell you that they can not keep their better professors. They are hired out from under the colleges by schools in the North, Mid-West or the West Coast at a much higher rate of pay.

Regardless of how fine the buildings and equipment may be, a higher educational system is only as good as the instructors.

The next time you read of some scientist, engineer or doctor receiving some recognition, notice where he received his doctor's degree—it is not likely to have come from a school in Texas.

### Singing at Hanna

A singing at Hanna Baptist Church, five miles northwest of Anson, will be held at 2 p.m. Sunday.

Mrs. Clyde Tidwell, secretary, said this week that quartets from Haskell, Anson and Hamlin are expected.

The public is invited to attend.

**SPECIAL WEEK**—Gov. John B. Connally is shown above signing a proclamation designating Feb. 3-9 as "Farm Bureau Week" in Texas. Looking on are Texas Farm Bureau Queen Valdene Garner of Brownfield, TFB Organization Director Millard Shivers of Waco (standing, left) and C. H. DeVaney of Cochoma, president of the state farm organization. The special week marks the beginning of a concerted drive to make 1963 the eleventh consecutive year for the state's largest farm organization to hit a new record in membership. Approximately 1,000 county Farm Bureau leaders are expected to attend kick-off rallies Feb. 4 in Lubbock, Dallas, and San Antonio launching the 1963 drive. The TFB's 1962 membership totaled 84,842 farm families, and the goal is 87,000.

Mrs. E. G. Holzmann, chairman of the nominating committee, presented the new slate

of officers who were unanimously elected. Those elected to serve with Mrs. Riddle include Nunley, vice president; Mrs. Bill Shira, secretary; Mrs. Bill Feagan, treasurer and Mrs. Bob Craig, public relations. Mrs. E. N. Jenkins is registrar.

Directors elected to fill vacancies were Mrs. Craig (1 yr.) and Johnnie Hester (2 yrs.). Three year directors elected were Mrs. Riddle, Mrs. Shira, Bill Feagan, Dr. James Harrison and Parker Kelley.

Carry-over directors are Mrs. Feagan, Mrs. Arlie Casle, Ray Sonnenburr, Donley Williams, 1 year; Nunley, A. V. Neinst, Melvin Scott and Mrs. Lou Bishop, 2 year.

Others who served on the nominating committee were Mmes. E. J. Hawkins and Wesley Nail.

The invocation was given by the Rev. Cecil Starns, pastor of the Nazarene Church.

Mmes. Feagan, Williams and Casey arranged the program. In a brief talk to the group, Nunley stressed that the adult leaders should put forth their best efforts in the work with the girls to help them become the adult leaders of tomorrow.

Captain John T. Walker, son of Mrs. Walker Sr. of Breckenridge and nephew of Mrs. E. M. Wilson of Hamlin, was awarded the Air Force Commendation Medal with citation for his outstanding efforts, which resulted in major improvements in the Administrative Services.

The citation read in part: "He established highly efficient procedures for the administrative support of 12 newly organized Reserve Forces Unit Advisor Detachments at widely separated locations throughout the United States."

### Paul Harvey To Speak in Abilene March 31

Paul Harvey, author, columnist and one of the nation's top radio news analysts, will speak at 8 p.m., March 30, in the Abilene High School Auditorium.

Appearance of Harvey, who has gained wide acclaim for his talks on Americanism, is being sponsored by the Abilene Junior Chamber of Commerce.

Tickets for the talk by this distinguished American are already on sale and may be purchased by mail. Only approximately 1,800 tickets will be sold for the speech, including about 500 in the reserved section.

Tickets will be \$3 for the reserved section and \$2 for general admission. They may be obtained by mailing check or money order along with a request for the number of tickets wished to Abilene Jaycees, Box 72, Abilene, Texas.

Harvey, whose daily radio news program is carried nationally by the ABC network, has received four gold medals from Valley Forge's Freedom's Foundation, which each year honors individuals and organizations for outstanding work in promoting Americanism.

## MORE THAN STATE AID NEEDED TO SAVE SCREWORM PROGRAM

Mission—An appropriation of funds by the Texas Legislature will not relieve the crisis which has developed in the exhaustion of producer funds in the Southwest Screwworm Eradication Program. Private sources will still have to raise the remaining \$1,000,000 of a \$3,000,000 livestock producer goal within the next few months, it was pointed out by C. G. Scruggs, president of the Southwest Animal Health Research Foundation.

A meeting of all Foundation county chairmen is scheduled in Austin for January 28 at which time the possibility of collecting the money from producers will be discussed.

Scruggs expressed the Foundation's appreciation to Governor John Connally and the Texas Legislature for recognition of the emergency facing the livestock owners of Texas. State funds which might become available would insure the successful completion of the three-year program, provided producers come up with their share, Scruggs said.

Governor Connally recently urged that immediate hearings be held so that action can be taken to prevent the termination of the project that seeks the eradication of the pest that costs the Southwestern livestock industry an estimated \$100 million annually. A legis-

lative Study Group has had the problem under consideration since early January 1962.

The future of the program remains in jeopardy because the federal appropriation bill specifies that money will be available only as long as 50 percent of the program's need is provided from non-federal sources. The \$2,000,000 already contributed by Southwestern farmers and ranchmen will have been spent before March 31.

### Local Boy Scouts To Run Station

Boy Scouts of Troop 43 will operate the Burt Oliver Oil Company station at the McCaulley Y Saturday, Feb. 9. All profits will go to the scouts to be used to finish paying for the bus now being used by the boys and other expenses.

The bus was purchased last fall and has been paid for mostly by the Halloween candy sale in October. The boys lack only \$20 having their debt paid.

The bus has been used for several trips and camp-outs. J. O. Murphree is Scoutmaster and Floyd Smith and L. R. Browning, assistants.

Local firemen were called and were able to bring the fire at the west end of the house, near the garage, under control by using the water in the booster truck.

Payne was able to prevent further damage to their pickup by backing it away from the blaze. It was parked in the drive with a gravel pile between it and the fire. The 1955 four door Chevrolet was parked in the garage.

The storage room which was attached to the garage was used for the washer, dryer, some household items and Payne's tools, valued at \$1,000. All were lost in the blaze.

## Years Ago...

### 40 Years Ago

The following is a statement by the superintendent of the schools, H. D. Neff. As you will note some of the same problems were evident forty years ago as now. Dear Patrons, We feel sure that there will be entirely too many failures in our school this term. It would be unfair for us to place the blame for this wholly at the feet of the patrons or at the hands of the pupils, but we, as teachers, are willing to share our part of the responsibility. Our school is a very complex organization and its success demands the best thought and most hearty co-operation of the five big factors that go to make up the local system, namely, the board, the superintendent, the faculty, the pupils and the patrons. If each of these groups will only accept its responsibility in the promotion of our school interests, all will be well; if one or more of these groups or factors fails to co-operate, our efforts will be in vain. In looking for the causes for the great number of failures, I have concluded that the principal ones are as follows: First, the pupils have not been made to realize that they must pay a dear price for an education; not necessarily a price in money, but a price in time, energy and sacrifice. One can not purchase an education with money he must pay for it in effort. Do our pupils go about their school work as a matter of little importance? Is your child devoting his whole time and energy to his school duties? If not, why not? Can he be expected to succeed if he fails to do this? Too many of our pupils think little of their work until the last two or three weeks of the term, and then try to do the work of the term in two weeks by cramming. These pupils are sure to fail. The second cause for our failure, as I see it, is the lack of a close contact between the home and the school. Our patrons do not know the conditions that prevail at the school, and many of them do not know what is required for the best school success. Patrons should talk with them often with reference to the progress of their children. Every patron should visit the classes and compare the work that is being done by his child with that of his classmates.

But this winter this part of the state has been having weather like June in January so why be surprised at a shower like June in January. The slow, summer like rains over the past few days have placed one and one-half inches of water all over pastures and farm lands.

## THE CLIMB

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Even when you know the proper way to climb with skis and the way up becomes easier, it still exerts you. However, the way is made even less of an effort when you think of the rewarding ride down.

The reward of an eternal life with God is easier still because it is a gift.

*"For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord."*

Attend church . . . learn more of this wonderful gift.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN—Rep. James Cotten of Weatherford—one of the militant members of the 58th Legislature—is examining the flight records of state-owned planes.

Cotten is concerned about what he considers frivolous use of state property—namely, three airplanes which

## Former Resident Married Saturday In Houston

After a wedding trip to Northern Michigan, Canada and Illinois, Mr. and Mrs. Stan M. Sheppard will make their home in Texas City. Sheppard, a former resident of Hamlin, was married to the former Evelyn Stanley Husted of Houston Saturday evening at 7:30 p.m. in the chapel of Bethany Methodist Church in Houston.

Sheppard was personnel director and safety supervisor at the Celotex Corporation plant here from Jan. 1, 1956, to Sept., 1958. He is now clinic manager of the Beeler-Manske Clinic of Texas City.

The couple will be at home after Feb. 8.

the Department of Public Safety is supposed to use for transporting officers to distant scenes of crimes, or to attend law enforcement meetings without missing too many duty hours.

Cotten says he has discovered these planes have been used for rushing a representative home for the weekend; for ferrying a state senator home to make a speech; for transporting the state librarian to a monument on the coast "to get ideas on how to set up displays."

Cotten wants to know "How much did these junkets cost?" State pilots haven't answered, but Austin airport authorities guess the cost at \$26 to \$75 an hour—depending on which plane is used—plus pilot's time.

Now the representative from Weatherford is talking about grounding all passengers except those who are entitled to use state planes for necessary official business.

He plans to introduce a bill that would forbid legislators from hitch-hiking rides aboard the planes unless they were on official business.

**PARENTAL SUPPORT BILL**—A bill which would make relatives responsible for the welfare of the needy old people has been introduced by Rep. J. Collier Adams of Lubbock.

Patterned after the "Montana Method," the bill calls for contributions to the support of citizens on Old Assistance and disabled persons receiving state aid.

The "responsible" relatives could be the assistance recipient's parent, aunt, uncle, niece, nephew, spouse, brother, sister, son, daughter or grandparent.

Proposed law would make a person earning \$201 a month and supporting only himself pay \$5 a month toward a relative's care. If he made \$376 a month and was supporting two people he'd have to pay \$20.

"I just believe," Representative Adams said, "that the commandment 'Honor thy mother and father' should be upheld." He said he also figures that the most needy people could get larger benefit

checks if others received semi-support from their families.

**BRUCellosis TESTS**—Dr. John L. Wilbur Jr., U. S. Department of Agriculture's animal disease eradication division, reported that public stockyards inspection last month revealed brucellosis infection ratios of 1 to 11 per cent.

High ration was revealed at the Port City Stockyards in Houston. An infection ratio of only one per cent was found at San Antonio's Union Stockyards. Fort Worth Stockyards' ration was 3.7 per cent.

**NO EMERGENCY**—The man who holds the state purse strings for the House of Representatives said he sees no urgency requiring fast legislative action to bolster the screwworm eradication by \$1,400,000.

Chairman Bill Healy of the House Appropriations Committee said his conclusion of a recent screwworm eradication project hearing is that livestock producers have raised enough money to keep the program going until March 1.

Meanwhile, an interim study committee headed by Sen. Culp Krueger of El Campo strongly recommended that the \$1,400,000 be appropriated now, and another \$1,600,000 be appropriated for the year beginning September 1.

This would make up the \$3,000,000, members of the Southwest Animal Health Research Foundation have been seeking from the state.

**FIRST APPOINTMENT**—Gov. John Connally's first appointment act was to name Judge Louis T. Holland Jr. of Montague as Presiding Judge of the 8th Administrative Judicial District.

Judge Holland will succeed Judge Jack M. Langdon of Ft. Worth.

**TRADING STAMP TAX**—As an alternate to spending "the cream of business profits" to out-of-state trading stamp companies, Rep. Jim Segrest of San Antonio proposed a 10 per cent gross receipts tax on trading stamps.

"Trading stamps are the most hated of all competitive

weapons by even those who use them so why not tax such an unhealthy item?" Segrest asked.

He said his bill would bring millions to the state treasury as a balance to "some fifty million dollars" taken out of Texas annually by trading stamp companies.

**\$18,000,000 PLANT SECURED**—Governor Connally, who's been determined to make this state a leader in securing new industry, was greatly pleased with the announcement that the Holly Sugar Corporation of Colorado Springs, Colorado, will establish an \$18,000,000 sugar beet processing plant in Hereford.

Construction will begin soon, and the 1,700-acre plant is expected to be in operation by September 1, 1964.

"Establishment of this refinery is a big step toward providing new job opportunities for the citizens of Texas," Governor Connally wired the sugar firm.

**COLLEGE HEARINGS ET**—House State Affairs Commit-

tee—which has been the referral point of about one-third of 200 bills already introduced by the 58th Legislature—put college upgrading requests first on its agenda.

Bills being heard first are those designed to lend senior status and full state support to San Angelo Junior College and Odessa Junior College, and give full state support to Pan American College at Edinburg.

**FUND-RAISING RESTRICTIONS**—Sen. Criss Cole of Houston believes the state should keep tabs on all people who raise money for charity.

Many charitable organizations use professional money-raisers to conduct fund campaigns, and Cole proposes that the charities tell Secretary of State Crawford Martin:

1. What sort of deals they've made with professional money-raisers;

2. What commissions the fund-raisers would get;

3. When solicitations will be held, and what will be done with the money solicited.

Annual reports of licensed

organizations would be checked by a certified public accountant. Attorney general would halt the activities of organizations which try to raise cash without registering, unless they are exempt from the act.

**END AD VALOREM TAX**—Legislation to abolish the state ad valorem tax in 1968 has been introduced in the House of Representatives.

Two constitutional amendments and a bill to do the job are being sponsored by Reps. Ben Atwell of Dallas and Charles N. Wilson of Trinity.

Why should the Midwest Electric Cooperative, Inc., borrow money at 2% interest? It's a fair question and it has a fair answer. When the Midwest was first organized, the founders of this electric system made a covenant with the federal government to provide area coverage... instead of serving only where it was convenient or profitable. That is why Midwest averages only 2.0 members per mile of line.

Yet in spite of this handicap, the member owned Midwest Electric Cooperative, Inc. offers a dependable efficient... economical electric service while paying back principal and interest on its loans.

It took ingenuity and industry on the part of your rural neighbors to do the job even with 2% money but with a smashing success. Low cost loans and the integrity of the Midwest members share in this great accomplishment.

## Stamford PCA Ends Good Year With Near Record Loans

STAMFORD — An active year in 1962, with one of its highest loan volumes on record, was reported by an official of the Stamford Production Credit Association in a year-end report of the agricultural financing institution, released this week.

Further increases in credit needs during 1963 were also foreseen in the association's

eight-county area of West Texas.

"Our loan volume at the end of 1962 was nearly \$1,000,000 above the end of 1961. This increase is partially due to short crops in the territory and partially due to an increase in the overall credit demand, General Manager J. L. Hill Jr. said in his report.

Moisture conditions are excellent in the association's territory, he said, but the small grains have received some damage from the recent extremely cold weather.

"The insect damage to cotton has been heavy in the past year. The extent of this damage in 1963 is unpredictable, but otherwise, our general agricultural outlook is good," Hill stated, adding that ample loan funds will be available to qualified farmers and ranchers.

The Stamford Production Credit Association had a total loan volume of \$9,085,340 in 1962, compared to a 1961 total of \$8,355,118. The association's assets total \$6,112,825, and net worth is \$1,253,825.

## Men's Hats

You smart guys that have been everywhere and seen everything — just come in and see this conglomeration of hats — Some that were priced up to \$8.95 . . .

now \$3.98

## Men's Sweaters

Perfect to keep mama's precious little man warm and cozy. Just bundle him in one of these and send him out to make a small living for a large family. We are so tired of looking at these that we don't want to remark them — Just take one at

1/2 Price

## Knit Shirts

Can't think of many good points about these men's long sleeve knit shirts except they do have 2 sleeves in them. They were originally priced up to \$3.98. How about taking one off our hands for \$1.49.

## MEN'S LONG SLEEVE

## Sportshirts

The salesman that sold us these over the telephone said they were a good assortment and as it turned out they were (All Plaids). Before we go plaid raving mad how about buying one of these for

\$1.98

## MEN'S PENDLETON

## Shirts

The Pendleton people don't like for us to cut the prices on their shirts (To heck with them). It seems we have mostly large sizes left as our buyer is a big man. These are 100% wool and the finest made and values to \$14.95. Would you be interested in one for

\$9.95?

## BOYS'

## Knit Pajamas

You kids that have been sleeping in long handles ought to come in and get yourselves a half dozen of these pajamas. They don't look much worse than you have been wearing. They are ski pajamas, with stripe collar and contrasting cuffs — 100% combed cotton, color fast, machine washable, fabric set. They need more description than this to make them sell for

\$1.49

## MEN'S FLEECE

## Lined Jackets

These are cape cutters with genuine shearling lining. These would probably sell next year, but the reason we would like to get rid of them is their weight. They are just simply too heavy to carry up and down the basement stairs. They were originally \$24.95. How about

\$15.00?

## MEN'S

## Topcoats

There isn't much to say about these 2 coats left except they probably aren't your size (40 and 42). Anyway if they are, how about

\$19.95

## BOYS' HOODED

## Sweatshirts

These are 2 to 6 sizes with cute little bear motifs on them. (Did I say cute, they are beginning to look ferocious to us). They are all white which you mothers don't like but maybe junior will like one for

\$1.49

## BOYS' CORDUROY

## Overalls

A former hot item for the 1 to 4 size kid—but they got too smart and now they are wearing white levis. Is there a kid left that will take a pair of these \$3.98 overalls for

\$1.98?

Some are made by Dotty Dan

## MEN'S CORDUROY

## Sportcoats

These are supposed to be real Collegiate, but who wants to be collegiate anyway. Could you see your way clear enough to pay us

\$7.00

for one of these?

## MEN'S

## Wool Sox

Our wool sox business hasn't been too good, but the fellow that sold us really had a nice business. Now we have the famous wear resistant, first quality 75% Lambswool and 25% nylon fancy ankle sox that sold for \$1.95 on the bargain rack. Any size 10-13 priced at 77c pair—If you want 'em you can even have 3 pairs for the original price of . . .

\$1.95

## LADIES'

## Heel Shoes

If you buy a pair of these your husband won't be seen with you, but who cares. These are values to \$10.95. Please help us out on these before the leather cracks, the color becomes more discolored and the heels are still on them for

\$2.99

## Ladies and Children's

## Houseshoes

Probably don't have your size and even if we did, you wouldn't like anything about these. They are just odds and ends and if you buy a pair they will make you flat footed, if you aren't already. Going for

\$1.99

## Ladies Leather

## Pixies

Before we bought these we had lots of calls for an all leather pixie. Now that we have these, looks like everybody wants plastic or something else. Anyway these were probably too high at \$3.98. Want to take a chance on a pair of these for

\$1.98

## CHILDREN'S

## Slipper Sox

Just didn't have enough of these before our last re-order. Our first shipment sold out completely, then we ordered (maybe a little too heavy). What happened to all of the people wanting these before we ordered? Would a

\$1.00 a pair

be asking too much for these \$1.98 values?

## MEN'S

## Ruffout Boots

Our buyer bought these like they were going to quit making these boots—Now we are loaded to the gills with these boots. Anyway they fit like socks on a rooster and were priced at \$9.95—Could we twist your arm and sell you a pair for

\$7.44

## INFANT'S

## Corduroy Sets

These are cute little corduroy pants with matching blouse etc. Maybe you mothers could afford to buy one of these as an infant this small shouldn't be able to say too much against them, although there isn't anything good since they did not sell. Priced at

1/2 price

## Lace

Some of this lace wouldn't do to tie up boxes with, some of it is faded, some of it just stinks—How about

5c yard

39c values

## Tier Curtains

The same old story, same old story, same old story, same old story. Enough of this, these really aren't too bad, just never seem to have enough of one kind or the color isn't right, or the length isn't right. Just take one of these (Don't need ironing) curtains. \$2.98 value for

\$1.29

## Ladies' Bras

These bras seem like a member of the family. They are getting old like the rest of us. We don't want them anymore and we're even more sure you don't either. They were \$3.98 but you'll be sorry if you buy one for

\$1.00

## LADIES'

## Wool Slacks

These were by Bobbie Brooks, and you should see the awful colors in these. Pauline says she is so tired of looking at these she could croak. Values to \$8.00 now . . .

\$1.98

## LADIES'

## Sweaters

No one likes to take the blame for these, either the salesman talked too fast or the buyers' eyes were bigger than the selling ability of the entire force—anyway here's what's left—30 left at and 28 at

\$1.99

which is much less than half price on most of them.

## LADIES'

## Wool Skirts

Our buyer was fishing with a skirt salesman at Phantom and looks like they were either nipping or bought sight unseen. The colors are the ones you have been ignoring all fall and the sizes are shot as usual. However they are by Donovan and Bobbie Brooks if this means anything which I'm sure it doesn't. Please help us out on these for . . .

\$5.00 each

## Ladies' and Children's

## Knit Pajamas

Thank goodness we only have a few of these ladies and children's knit pajamas left. They have boat necks, poncho bottoms, color fast, washable and no ironing is needed—In fact it looks like you think that it is not even necessary for wearing—How about

\$1.99

a pair for them this cold weather?

## CHILDREN'S

## Sweaters

Two messy looking groups of sweaters left for the children—Now we are disgusted as we think that left over sweaters are one of sportswear's worst evils—you want em—take your pick of shipover Banlons, cardigan styles and bulky knit cardigans, the whites are a little too much like ecru and the reds are a little faded looking—Your pick

\$1.98

## Ladies' Coats

About 10 coats left in this group and we just don't know what to say as you didn't like them all fall so why should you like them now. Anyway we are supposed to sell them to make room for more mistakes. Take your choice of values to \$59.95 for

\$24.95

Childrens, Misses and Ladies hooded

## Sweat Shirts

IF - IF - IF - If the ladies would have had pockets, the golfers would have bought them, if the girls hadn't have had a contrasting trim, they would have sold—Next year we hope to do better—Take your pick if any at

\$1.99 ea.

## LADIES'

## Sloppy Joe Pants

Want to be the sloppiest lady in Hamlin? If you do, just buy yourself a pair of these pants. Although they are all cotton and have a fleece lining, just don't believe you would be interested in being known as sloppy, but if you do . . .

\$1.49

gets em.

## CHILDREN'S

## Skirts

One lot left and it is a bold plaid. If you happen to be color blind and can't see the colors too well maybe you wouldn't know the difference. They were supposed to sell for \$2.99 (but didn't) and need to be thrown in the trash. So, if you don't take these for

\$1.00

guess what a surprise the trash haulers will have some morning?

## LADIES'

## Dresses

Dozens of women have already tried on these dresses and each time they would say: "I believe I'll look around before I decide." You won't like them either. There is an assortment of fabrics and colors of values to \$14.95 now

\$5.00

and values to \$22.50 now

\$8.00

## Assorted Fabrics

You will probably go mad trying to sew with fabrics like these. At least it won't be any fun so why waste your time with these left over odds and ends. If you will wait about two weeks we will have plenty of new spring fabrics to work with—One group of Bazaar tafetas, Folker suitings, Darb-text suitings and corduroy

2 yards for \$1.00

\$1.67 pr.

Wools \$2.98

## GRAB TABLE

## LADIES'

## Wool Slacks

Only 6 pair left in this group, mostly in the not so good sizes—If you are one of the not so good sizes (What am I saying) Please take these off our hands for

\$5.00 pair

## News and Views . . .

### and what have you

by BOB CRAIG

By a mix up in dates last week we carried the story that the annual Mother's March on Polio would be held this past Monday. This should have been tonight.

I asked Bill Early, Lion's Club chairman for the project, if the drive would be Monday and he looked at a December calendar and said yes—so we goofed.

Please have your porch light on tonight and give as much as possible to this worthy cause.

Today is the last day that you can qualify yourself to vote this year.

While it looks as if this may be the last year that the people of Texas will have to pay a poll tax in order to vote—it still must be paid this year.

The best way for you to let someone else decide what kind of government you will have is by not recognizing your right of the ballot. You can gripe all you want to, but if you do not vote it will not carry much weight.

Although it may slow down later, it looks like the Texas Legislature has started this session off in a manner that the people of Texas can be proud of.

Governor John Connally has given the men in the House and Senate a program of work that has a purpose. The two houses organized quickly and have settled down to the task at hand.

In the past there has been so much wrangling over the organization and leadership of the house that it has taken nearly all of the regular session just to get started.

For the future growth of Texas it seems to me that the most important program that the governor has asked the legislature for is the study of higher education.

All you have to do is talk to a head of any of the colleges in the state's systems and they will tell you that they can not keep their better professors. They are hired out from under the colleges by schools in the North, Mid-West or the West Coast at a much higher rate of pay.

Regardless of how fine the buildings and equipment may be, a higher educational system is only as good as the instructors.

The next time you read of some scientist, engineer or doctor receiving some recognition, notice where he received his doctor's degree. It is not likely to have come from a school in Texas.

## Singing at Hanna

A singing at Hanna Baptist Church, five miles northwest of Anson, will be held at 2 p.m. Sunday.

Mrs. Clyde Tidwell, secretary, said this week that quartets from Haskell, Anson and Hamlin are expected.

The public is invited to attend.

**SPECIAL WEEK**—Gov. John B. Connally is shown above signing a proclamation designating Feb. 3-9 as "Farm Bureau Week" in Texas. Looking on are Texas Farm Bureau Queen Valdene Garner of Brownfield, TFB Organization Director Millard Shivers of Waco (standing, left) and C. H. DeVaney of Cochoma, president of the state farm organization. The special week marks the beginning of a concerted drive to make 1963 the eleventh consecutive year for the state's largest farm organization to hit a new record in membership. Approximately 1,000 county farm bureau leaders are expected to attend kick-off rallies Feb. 4 in Lubbock, Dallas, and San Antonio launching the 1963 drive. The TFB's 1962 membership totaled 84,842 farm families, and the goal is 87,000.

## Paul Harvey To Speak in Abilene March 31

Paul Harvey, author, columnist and one of the nation's top radio news analysts, will speak at 8 p.m., March 30, in the Abilene High School Auditorium.

Appearance of Harvey, who has gained wide acclaim for his talks on Americanism, is being sponsored by the Abilene Junior Chamber of Commerce.

Tickets for the talk by this distinguished American are already on sale and may be purchased by mail. Only approximately 1,800 tickets will be sold for the speech, including about 500 in the reserved section.

Tickets will be \$3 for the reserved section and \$2 for general admission. They may be obtained by mailing check or money order along with a request for the number of tickets wished to Abilene Jaycees, Box 72, Abilene, Texas.

Harvey, whose daily radio news program is carried nationally by the ABC network, has received four gold medals from Valley Forge's Freedom's Foundation, which each year honors individuals and organizations for outstanding work in promoting Americanism.

## MORE THAN STATE AID NEEDED TO SAVE SCREWORM PROGRAM

Mission—An appropriation of funds by the Texas Legislature will not relieve the crisis which has developed in the exhaustion of producer funds in the Southwest Screwworm Eradication Program. Private sources will still have to raise the remaining \$1,000,000 of a \$3,000,000 livestock producer goal within the next few months, it was pointed out by C. G. Scruggs, president of the Southwest Animal Health Research Foundation.

A meeting of all Foundation county chairmen is scheduled in Austin for January 28 at which time the possibility of collecting the money from producers will be discussed.

Scruggs expressed the Foundation's appreciation to Governor John Connally and the Texas Legislature for recognition of the emergency facing the livestock owners of Texas. State funds which might become available would insure the successful completion of the three-year program, provided producers come up with their share, Scruggs said.

Governor Connally recently urged that immediate hearings be held so that action can be taken to prevent the termination of the project that seeks the eradication of the pest that costs the Southwestern livestock industry an estimated \$100 million annually. A legis-

lative Study Group has had the problem under consideration since early January 1962.

The future of the program remains in jeopardy because the federal appropriation bill specifies that money will be available only as long as 50 percent of the program's needed funds are provided from non-federal sources. The \$2,000,000 already contributed by Southwestern farmers and ranchmen will have been spent before March 31.

## Local Boy Scouts To Run Station

Boy Scouts of Troop 43 will operate the Burt Oliver Oil Company station at the McCauley Y Saturday, Feb. 9. All profits will go to the scouts to be used to finish paying for the bus now being used by the boys and other expenses.

The bus was purchased last fall and has been paid for mostly by the Halloween candy sale in October. The boys lack only \$20 having their debt paid.

The bus has been used for several trips and camp-outs. J. O. Murphree is Scoutmaster and Floyd Smith and L. R. Browning, assistants.

Local firemen were called and were able to bring the fire

at the west end of the house near the garage, under control by using the water in the booster truck.

Payne was able to prevent further damage to their pickup by backing it away from the blaze. It was parked in the drive with a gravel pile between it and the fire. The 1955 four door Chevrolet was parked in the garage.

### 40 Years Ago

The following is a statement by the superintendent of the schools, H. D. Neff. As you will note some of the same problems were evident forty years ago as now. Dear Patrons, We feel sure that there will be entirely too many failures in our school this term. It would be unfair for us to place the blame for this wholly at the feet of the patrons or at the hands of the pupils, but we, as teachers, are willing to share our part of the responsibility. Our school is a very complex organization and its success demands the best thought and most hearty co-operation of the five big factors that go to make up the local system, namely, the board, the superintendent, the faculty, the pupils and the patrons. If each of these groups will only accept its responsibility in the promotion of our school interests, all will be well; if one or more of these groups or factors fails to co-operate, our efforts will be in vain. In looking for the causes for the great number of failures, I have concluded that the principal ones are as follows: First, the pupils have not been made to realize that they must pay a dear price for an education; not necessarily a price in money, but a price in time, energy and sacrifice. One can not purchase an education with money he must pay for it in effort. Do our pupils go about their school work as a matter of little importance? Is your child devoting his whole time and energy to his school duties? If not, why not? Can he be expected to succeed if he fails to do this? Too many of our pupils think little of their work until the last two or three weeks of the term, and then try to do the work of the term in two weeks by cramming. These pupils are sure to fail. The second cause for our failure, as I see it, is the lack of a close contact between the home and the school. Our patrons do not know the conditions that prevail at the school, and many of them do not know what is required for the best school success. Patrons should know the teachers and should talk with them often with reference to the progress of their children. Every patron should visit the classes and compare the work that is being done by his child with that of his classmates.

Four talking pictures will be one of the features of the John Deere Day at Bryant-Link Company. The rarest thing in West Texas is rain in January. But this winter this part of the state has been having weather like June in January. The slow, summer like rains over the past few days have placed one and one-half inches of water all over pastures and farm lands.

## THE CLIMB

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Even when you know the proper way to climb with skis and the way up becomes easier, it still exerts you. However, the way is made even less of an effort when you think of the rewarding ride down.

The reward of an eternal life with God is easier still because it is a gift.

*"For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord."*

Attend church...learn more of this wonderful gift.

## FAIRVIEW NEWS

By MRS. ELMER JOINER

About the only activity going on out this way is thawing out water pipes and trying to keep warm. Those that have cattle to feed and provide water for them to drink have a pretty good job, but most of us just sit around the fire, listen to the news for a promise of a break in the cold wave, or find out when the next one will hit. There seems to be another cold front on the map every time and never has failed to arrive. The little wheat is still with us, but looks sicker every week of cold, dry weather.

Owing to the cold weather attendance has been light at every thing recently. Only one went from our Church to Cor-

inth last Wednesday night, to the brotherhood family night. Attendance at church, both services Sunday was light, some were sick and some were just cold.

Mrs. Derrel Lewis received another message Tuesday night that her father was real bad again. The family went to Lubbock that night, it was feared that Mr. Ray would not survive through the night, but revived and is some better, although he is reported to be in a very serious condition yet.

Rev. Lewis had gone to the doctor Tuesday morning and had had a toe nail removed from his big toe, which was growing every way but the right way, so he is going around this cold weather in a toeless sandal, but anyway he is rid of that pain.

Mrs. Lewis and the two boys were sick with colds this Sunday and unable to come to church. Ricky had been sick ever since Monday, having to come home from school sick.

Mr. and Mrs. H. L. Ford visited with Mr. and Mrs. Winslow Gray, last Wednesday night.

Thursday night, Mr. and Mrs. Floyd Holmes visited with Mr. and Mrs. Mel Jones.

Mr. and Mrs. Winslow Gray went to Houston Thursday, to visit with their daughter, Mr. and Mrs. Doyal Bills and little daughter, Jana. They will return Monday.

Mr. and Mrs. Elmer Joiner went to Stamford Thursday afternoon and visited with the Jimmy Joiners and Mr. and Mrs. Arthur Rutherford. It was learned last Thursday morning that Brown Rainwater, a former resident of our community, had passed away at his home in Lubbock, of a heart attack. Mrs. Rainwater is the former Clara Agnew, sister of Johnnie Agnew. He will be brought to Prairie View for burial, when the boy arrives from London. It was Mr. Rainwater's first attack, and he died instantly.

Mr. and Mrs. Woodrow Goodwin report that his brother, Bryan Goodwin, of the Hanna community, was carried from the hospital in Anson, last week, to the nursing home in Roby. He and Mrs. Goodwin will stay there, where he will have nursing care. This is the same nursing home that Mrs. Fomby is a resident of.

Rev. Doyle Combs, employee of the Hamlin Herald, was a dinner guest of the Winslow Grays last Wednesday.

Mrs. Woodrow Goodwin and Linda and Mrs. Elmer Joiner went to Abilene last Tuesday. It is with regret that we

have learned that Mrs. Spero Constantine, the former Janice Agnew, had a painful accident at her home in Midland last week. It seems that she dropped a sewing machine on her foot, crushing it, although no details were learned, it was evidently a portable machine.

Mr. and Mrs. Henry Kee, of Lubbock, spent Saturday night and Sunday, with her brother, Mr. and Mrs. Elmer Joiner.

The Joiners visited with the Rosenbaums after church Sunday night.

Sunday, being layman's day in the churches, the services were both conducted by laymen. Sunday morning, Mr. Joe Ford and Jack Wright made the talks, and Sunday night the service was led by Woodrow Goodwin.

Just in case any one is wondering if we still have the coons with us, will say we do. One recent night this member arrived at church on Wednesday night, the first one, and although it was dusky dark, went in to light the fires. Just a coon went up or down the wall, coon went up or down the wall, went up or down the wall, scratching and clawing, sounding much like a "booger" in the church house. Anyway, although I knew it was a coon, the fires didn't get lighted until some else arrived.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN—Rep. James Cotten of Weatherford—one of the militant members of the 58th Legislature—is examining the flight records of state-owned planes.

Cotten is concerned about what he considers frivolous use of state property—namely, three airplanes which

### Former Resident Married Saturday In Houston

After a wedding trip to Northern Michigan, Canada and Illinois, Mr. and Mrs. Stan M. Sheppard will make their home in Texas City, Sheppard, a former resident of Hamlin, was married to the former Evelyn Stanley Husted of Houston Saturday evening at 7:30 p.m. in the chapel of Bethany Methodist Church in Houston.

Sheppard was personnel director and safety supervisor at the Celotex Corporation plant here from Jan. 1, 1956, to Sept., 1958. He is now clinic manager of the Beeler-Manske Clinic of Texas City.

The couple will be at home after Feb. 8.

the Department of Public Safety is supposed to use for transporting officers to distant scenes of crimes, or to attend law enforcement meetings without missing too many duty hours.

Cotten says he has discovered these planes have been used for rushing a representative home for the weekend; for ferrying a state senator home to make a speech; for transporting the state librarian to a monument on the coast "to get ideas on how to set up displays."

Cotten wants to know "How much did these junkets cost?" State pilots haven't answered, but Austin airport authorities guess the cost at \$26 to \$75 an hour—depending on which plane is used—plus pilot's time.

Now the representative from Weatherford is talking about grounding all passengers except those who are entitled to use state planes for necessary, official business.

He plans to introduce a bill that would forbid legislators from hitch-hiking rides aboard the planes unless they were on official business.

**PARENTAL SUPPORT BILL**—A bill which would make relatives responsible for the welfare of the needy old people has been introduced by Rep. J. Collier Adams of Lubbock.

Patterned after the "Montana Method," the bill calls for contributions to the support of citizens on Old Assistance and disabled persons receiving state aid.

The "responsible" relatives could be the assistance recipient's parent, aunt, uncle, niece, nephew, spouse, brother, sister, son, daughter or grandparent.

Proposed law would make a person earning \$201 a month and supporting only himself pay \$5 a month toward a relative's care. If he made \$376 a month and was supporting two people, he'd have to pay \$20.

"I just believe," Representative Adams said, "that the commandment 'Honor thy mother and father' should be upheld." He said he also figures that the most needy people could get larger benefit

checks if others received semi-support from their families.

**BRUCELOSIS TESTS**—Dr. John L. Wilbur Jr., U. S. Department of Agriculture's animal disease eradication division, reported that public stockyards inspection last month revealed brucellosis infection ratios of 1 to 11 per cent.

High ratios were revealed at the Port City Stockyards in Houston. An infection ratio of only one per cent was found at San Antonio's Union Stockyards. Fort Worth Stockyards' ratio was 3.7 per cent.

**NO EMERGENCY**—The man who holds the state purse strings for the House of Representatives said he sees no urgency requiring fast legislative action to bolster the screwworm eradication by \$1,400,000.

Chairman Bill Healy of the House Appropriations Committee said his conclusion of a recent screwworm eradication project hearing is that livestock producers have raised enough money to keep the program going until March 1.

Meanwhile, an interim study committee headed by Sen. Culp Krueger of El Campo strongly recommended that the \$1,400,000 be appropriated now, and another \$1,600,000 be appropriated for the year beginning September 1.

This would make up the \$3,000,000, members of the Southwest Animal Health Research Foundation have been seeking from the state.

**FIRST APPOINTMENT**—Gov. John Connally's first appointment act was to name Judge Louis T. Holland Jr. of Montague as Presiding Judge of the 8th Administrative Judicial District.

Judge Holland will succeed Judge Jack M. Langdon of Ft. Worth.

**TRADING STAMP TAX**—As an alternate to spending "the cream of business profits" on out-of-state trading stamp companies," Rep. Jim Segrest of San Antonio proposed a 10 per cent gross receipts tax on trading stamps.

"Trading stamps are the most hated of all competitive

weapons by even those who use them so why not tax such an unhealthy item?" Segrest asked.

He said his bill would bring millions to the state treasury as a balance to "some fifty million dollars" taken out of Texas annually by trading stamp companies.

**\$18,000,000 PLANT SECURED**—Governor Connally, who's been determined to make this state a leader in securing new industry, was greatly pleased with the announcement that the Holly Sugar Corporation of Colorado Springs, Colorado, will establish an \$18,000,000 sugar beet processing plant in Hereford.

Construction will begin soon, and the 1,700-acre plant is expected to be in operation by September 1, 1964.

"Establishment of this refinery is a big step toward providing new job opportunities for the citizens of Texas," Governor Connally wired the sugar firm.

**COLLEGE HEARINGS ET**—House State Affairs Commit-

tee—which has been the referral point of about one-third of 200 bills already introduced by the 58th Legislature—put college upgrading requests first on its agenda.

Bills being heard first are those designed to lend senior status and full state support to San Angelo Junior College and Odessa Junior College, and give full state support to Pan American College at Edinburg.

**FUND-RAISING RESTRICTIONS**—Sen. Criss Cole of Houston believes the state should keep tabs on all people who raise money for charity.

Many charitable organizations use professional money-raisers to conduct fund campaigns, and Cole proposes that the charities tell Secretary of State Crawford Martin.

1. What sort of deals they've made with professional money-raisers;

2. What commissions the fund-raisers would get;

3. When solicitations will be held, and what will be done with the money solicited.

Annual reports of licensed organizations would be checked by a certified public accountant. Attorney general would halt the activities of organizations which try to raise cash without registering, unless they are exempt from the act.

**END AD VALOREM TAX**—Legislation to abolish the state ad valorem tax in 1968 has been introduced in the House of Representatives.

Two constitutional amendments and a bill to do the job are being sponsored by Reps. Ben Atwell of Dallas and Charles N. Wilson of Trinity.

**Why 2% money?**

Why should the Midwest Electric Cooperative, Inc., borrow money at 2% interest? It's a fair question and it has a fair answer. When the Midwest was first organized, the founders of this electric system made a covenant with the federal government to provide area coverage... instead of serving only where it was convenient or profitable. That is why Midwest averages only 2.0 members per mile of line.

Yet in spite of this handicap, the member-owned Midwest Electric Cooperative, Inc., offers a dependable... efficient... economical electric service while paying back principal and interest on its loans.

It took ingenuity and industry on the part of your rural neighbors to do the job even with 2% money but with a smashing success. Low cost loans and the integrity of the Midwest members share in this great accomplishment.

## Stamford PCA Ends Good Year With Near Record Loans

STAMFORD — An active year in 1962, with one of its highest loan volumes on record, was reported by an official of the Stamford Production Credit Association in a year-end report of the agricultural financing institution, released this week.

Further increases in credit needs during 1963 were also foreseen in the association's

eight-county area of West Texas.

"Our loan volume at the end of 1962 was nearly \$1,000,000 above the end of 1961. This increase is partially due to short crops in the territory and partially due to an increase in the overall credit demand, General Manager J. L. Hill Jr. said in his report.

Moisture conditions are excellent in the association's territory, he said, but the small grains have received some damage from the recent extremely cold weather.

"The insect damage to cotton has been heavy in the past year. The extent of this damage in 1963 is unpredictable, but otherwise, our general agricultural outlook is good," Hill stated, adding that ample loan funds will be available to qualified farmers and ranchers.

The Stamford Production Credit Association had a total loan volume of \$9,085,340 in 1962, compared to a 1961 total of \$8,355,118. The association's assets total \$6,112,825, and net worth is \$1,253,825.

Probably don't have your size and even if we did, you wouldn't like anything about these. They are just odds and ends and if you buy a pair they will make you flat footed, if you aren't already. Going for

\$1.99

## Ladies Leather Pixies

Before we bought these we had lots of calls for an all leather pixie. Now that we have these, looks like everybody wants plastic or something else. Anyway these were probably too high at \$3.98. Want to take a chance on a pair of these for

\$1.98

## CHILDREN'S Slipper Sox

Just didn't have enough of these before our last re-order. Our first shipment sold out completely, then we ordered (maybe a little too heavy). What happened to all of the people wanting these before we ordered? Would a

\$1.00 a pair

be asking too much for these \$1.98 values?

## MEN'S Ruffout Boots

Our buyer bought these like they were going to quit making these boots—Now we are loaded to the gills with these boots. Anyway they fit like socks on a rooster and were priced at \$9.95—Could we twist your arm and sell you a pair for

\$7.44

## INFANTS' Corduroy Sets

These are cute little corduroy pants with matching blouse etc. Maybe you mothers could afford to buy one of these as an infant this small shouldn't be able to say too much against them, although there isn't anything good since they did not sell. Priced at

1/2 price

Lace

Some of this lace wouldn't be to tie up boxes with, some of it is faded, some of it just stinks—How about

5c yard

35c values

## Tier Curtains

The same old story, same old story, same old story. Enough of this, these really aren't too bad, just never seem to have enough of one kind or the color isn't right, or the length isn't right. Just take one of these (Don't need ironing) curtains. \$2.98 value for

\$1.29

## Ladies' Bras

These bras seem like a member of the family. They are getting old like the rest of us. We don't want them anymore and we're even more sure you don't either. They were \$3.98 but you'll be sorry if you buy one for

\$1.00

## LADIES' Wool Slacks

These were by Bobbie Brooks, and you should see the awful colors in these. Pauline says she is so tired of looking at these she could croak. Values to \$8.00 now . . .

\$1.98

## LADIES' Sweaters

No one likes to take the blame for these, either the salesman talked too fast or the buyers' eyes were bigger than the selling ability of the entire force—anyway here's what's left—30 left at

\$1.99

and 28 at

\$5.00

which is much less than half price on most of them.

## LADIES' Wool Skirts

Our buyer was fishing with a skirt salesman at Phantom and looks like they were either nipping or bought sight unseen. The colors are the ones you have been ignoring all fall and the sizes are shot as usual. However they are by Donovan and Bobbie Brooks if this means anything which I'm sure it doesn't. Please help us out on these for . . .

\$5.00 each

## Ladies' and Children's Knit Pajamas

Thank goodness we only have a few of these ladies and children's knit pajamas left. They have boat necks, poncho bottoms, color fast, washable and no ironing is needed—In fact it looks like you think that it is not even necessary for wearing—How about

\$1.99

a pair for them this cold weather?

## GRAB TABLE

Here is something you could just pass on by and be just as well off—There is no telling what you will find in one of these. We have put everything in them but the kitchen sink and if the water at home doesn't thaw, don't be surprised to find this too—

LADIES'

## Wool Slacks

Only 6 pair left in this group, mostly in the not so good sizes—If you are one of the not so good sizes (What am I saying) Please take these off our hands for

## Bath Towels

All from Cannon and that is about all the good there is in the whole lot—they are just odds and ends, all colors and styles with very few matching sets—You may like them better than we do—anyway they are all on one big table and we don't want to remark or tag them so just take them to the cashier and she will take

OFF 1/3

of the price of the lot you pick.

## Ladies' Hose

This is a conglomeration of hose with values up to \$1.65 that have been tried on, but not too badly stretched. Some of them are mismatched and the colors look like yesterday's last rose. If you can see fit to help us out on these we promise to keep a cleaner stock of hose from now on.
